Artist Statement

This piece is from the Artist's Point of View series. The muse of origin for this work was Australian Super Model Jennifer Hawkins. As the work progressed towards completion, the form was also influenced by Jennifer Lopez & Jennifer Garner. The piece came to represent more, it became all things Jennifer.

The soft, flowing feminine curves of this piece are enhanced by the high lustre finish and the iridescent shimmering reflections of crystals under the marble surface. Viewers are seduced into an ongoing search for more of the pearl essence.

The work provides an assortment of visual flows designed to be explored from multiple viewpoints as the Artist challenges your view on what you think you see by taunting you with shifting shapes, melting sensual forms & negative spaces.

Her use of iridescent white marble to provide an enchanted, fairy-tale aura is deliberate and completes the work.
